

International Food & Environmental Analysis Summit

3 - 4 April, 2019 | Toledo, Spain

Innovation with purpose

Agilent invites scientists and lab managers investigating new techniques and technologies to improve and expand their food and environmental analyses, to the **Beatriz Hotel**, Toledo, Spain, on the 03-04 April 2019.

Registration will be opening soon, please watch this space. A provisional agenda will be available in the coming weeks with a mix of presentations and training workshops.

The event will be free to attend, but places are limited.

Please let us know your details if you would be interested in attending or presenting a talk or poster. [Click here](#).

Historic city of Toledo

Successively a Roman municipium, the capital of the Visigothic Kingdom, a fortress of the Emirate of Cordoba, an outpost of the Christian kingdoms fighting the Moors and, in the 16th century, the temporary seat of supreme power under Charles V, Toledo is the repository of more than 2,000 years of history. Its masterpieces are the product of heterogeneous civilizations in an environment where the existence of three major religions – Judaism, Christianity and Islam – was a major factor.
